The history is by no means clear. In reference to literary 'compiling', *compīlātor* was applied reproachfully by rivals to Vergil, and this is commonly taken as = 'plunderer'; but Isidore (*a.* 640), in reference to this very circumstance, says 'Compilator, qui aliena dicta suis permiscet, sicut solent pigmentarii in pila' diversa mixta contundere', where the etymological explanation 'to mix in a mortar', implies at least that no sense of 'plunder' any longer attached to the word. Compliment (kɒ·mplimĕnt), *sb.* Also 7 comply-ment. [Adopted in end of 17th c. from F. *compliment*, 16th c. ad. It. *complimento*, 'expression of respect and civility to another by words or by acts'. The L. *complēmentum*, Romanic *complimento*, became in OF. *complement* (*compliement*), in It. *compimento*, with the original sense of 'filling

up, fulfilment, accomplishment'; in OCat. *complimento*, Sp. *cumplimiento*, there was a special development of use, as in the verb (see COMPLY), giving the sense 'observance or fulfilment of the requirements and forms of courtesy', which was adopted in It. in the form *complimento*, and thence passed into Fr. and Eng. *Compliment* is thus a doublet of COMPLEMENT (the form directly from Latin). The latter was in use in this sense about a century before the introduction of the French word, which slowly took its place between 1655 and 1715: see COMPLEMENT *sb.* 9, where the earlier history of this sense may be seen; cf. also COMPLY.

H. L'Estrange's *comply-ment*, *compli-ment* (in sense 1, 1 b), appear to have been formed for the nonce on COMPLY, before *compliment* was in Eng. use. Cf. Skinner, 1668–71 '*complement* a Fr. *compliment*, It. *complimento*, hæc a verbo *to Comply*, q.d. *Comply-ments*'.

(From *c* 1700 to the present day nearly all editions of 16–17th c. works, whether re-issues of printed books or original editions from MS. (e.g. *Clarendon's History*, *Pepys' Diary*, *Letters of Dorothy Osborne*, etc.), systematically alter the original spelling *complement* into *compliment*, as do also modern dictionaries in their alleged quotations; only contemporary documents supply evidence as to the introduction of the French form.)]

In recent times, the plural *complins*, after the Fr. and L. and analogous to *matins*, has come in. The final *e* is modern and unhistorical.]

Comply (kɒ·mplәi·), *v.*¹ Also 7 -ie. [Appears first about 1600. In sense 1, it answers to L. *complēre* to fill up, fulfil, accomplish, Complete. This verb became in Romanic *complīre*, whence It. *compire*, *compiere*, Pr. and OF. *complir* (see Complish), all in the original sense. But in OCat. *complir* or Sp. *cumplir*, the sense underwent the development 'to fill up, make up what is wanting, satisfy, satisfy the requirements or forms of courtesy' = *comply with*, in sense 2 below. In this latter sense, *complire* appears to have been adopted in 16th c. Italian, by the side of the native *compire* in the original sense; and the It. was evidently the immediate source of our sense 2. (In the same way the OCat. or Sp. form and sense of the derivative sb. *complimento*, *complimiento*, was the source of It. *complimento*, and so of the 16th c. F. *compliment*, and 17th c. Eng. Compliment.) As to the form of *comply* cf. Supply (L. *supplē-re*, It. *supplī-re*, OF. *souple-y-er* (15th c. *supplеyer*, *suppleer*), late ME. *sowplé*, 15th c. *supple*, *supplie*, *supply*. On the model of this, and with the same relation of form to L. *complēre*, It. *complire*, that *supply* bore to *supplēre*, *supplire*, but without the same antecedent history, *comply* appears to have come into use in the end of the 16th c. (OF. *complir* was by that time obsolete.) In the sense-development in English there has been a tendency to association with Ply, Fr. *plier*, L. *plicāre* to bend, so as to make 'bending to the will of another' a more prominent part of the notion: cf. esp. Compliant.]

Compurgation (kɒmpɒ̄ɪgē·ʃən). [ad. L. *compurgātiōn-em*, n. of action f. *compurgāre* to purify completely; but cf. COMPURGATOR. In 15th c. F. *compurgacion.*]

1. The action of clearing a man from a charge or accusation by the oaths of a number of others (called from its use in the Canon Law, *Purgatio canonica*); also, more generally, Clearing or purgation from a charge, vindication; evidence or testimony to this effect.

[1658 PHILLIPS, *Compurgation*, a Term in Law, a justifying by Oath the report or Oath of another. 1755 in JOHNSON.] *a* 1670 HACKET *Abp. Williams* II. (1692) 35 [He] was priviledged..from suspicion of Incontinency and needed no compurgation. 1681 BURNET *Hist. Ref.* II. 1818 SCOTT *Rob Roy* ix, I understand my evidence is necessary to the compurgation of ane honest gentleman here. 1873 H. ROGERS *Orig. Bible* viii. 321 *note*, This fact is a sufficient compurgation from the charge.

2. *esp.* Applied by modern historians to the Old English mode of trial and purgation by means of the *ǽwdan* or *consacramentales*, then called *dō-fultum*, 'oath-help' or 'oath-support' (in mod. Ger. *Eideshülfe*): see COMPURGATOR 1 b.

This mode of trial, so prevalent among the old Teutonic peoples, began to lose its importance as trial by Jury and other processes came up in the 12th c., esp. after the Assize of Clarendon in 1166; but in privileged burghs, and in certain civil actions, e. g. for debt, it came down to modern times, being finally abolished only in 1833 by 2 & 3 Will. IV. c. 42 § 13. But the term *compurgation* was not known to the Common Law, where the technical name was WAGER OF LAW: the accused who claimed so to purge himself was said to *wage his law* (*vadiare legem suam*).

[1658–1755 see in 1]. 1839 KEIGHTLEY *Hist. Eng.* I. 78 The oath of a King's thane in compurgation was equivalent to those of six Ceorls. 1867 FREEMAN *Norm. Conq.* (1876) I. vi. 514 Compurgation .. was looked on as the surest proof of innocence. 1875 MAINE *Hist. Inst.* ii. 48 Such tests of truth as Ordeal and Compurgation.

Compurgator (kɒ̆mpɒ̈ɪgē·tər, kɒ̆mpə̄·ɪgătər). Also 6 **-our**. [a. med.L. *compurgātor*, or F. *compurgateur* (14th c. in Godef.), n. of action f. L. *compurgāre* to purge completely; in mediæval or modern times, app. taken as if from *com-* together with + *purgātor* purger, clearer. (The second pronunciation is found in verse of 17–18th c.)]

1. A witness to character who swore along with the person accused, in order to the acquittal of the latter.

Originally a term of the Canon Law, appearing first, according to Du Cange, in the writings of Pope Innocent III (1198–1216), XVI. Ep. 158, and c. ix. and xiii. *de Purgatione Canonica*; it occurs in the *Corpus Juris Canonici*, in *Decret. Greg. IX* (1227–41) v. Tit. XXIV. c. v, vii. Earlier Latin names, referring to the laws of the Northern nations, were *Sacramentales* (Laws of Alemanns, Frisians, Longobards, etc.); *Consacramentales* (Capitula of Charlemagne, Laws of Cnut, and of Hen. I, c. 64, 66, 87); *Sacramentarii* (Pope John VIII, 872, 882); *Juratores, Conjuratores* (Salic & Alem. Laws, etc., etc.). In England the term *compurgator* appears to have been used only in ecclesiastical law until the 17th and 18th c., when legal antiquaries and historians began to apply it retrospectively in sense 1 b.

a. In *Canon Law*, Applied to witnesses who either swore to the credibility of the accused when he purged himself by oath, or otherwise swore to his innocence or orthodoxy, so as to clear him from a charge.

[*c* 1340 ABP. STRATFORD in Lyndewode *Const. Prov.* v, Tit. 14 Pro graviori siquidem ut pro Adulterio vel majori ultra duodecimæ manus Compurgatorum numerum non imponant.] 1533 MORE *Debell. Salem* Wks. 980/2 That thordinary shoulde not put some man to that kinde of purgacion which if hee did, were hee neuer so noughty, he should be sure of compurgatours. *a* 1556 CRANMER *Wks.* (Parker Soc.) I. 241 Where you take upon you..to purge yourself of papistry by me and Zuinglius, if you have no better compurgators than us two, you be like to fail in your purgation. 1641 *Termes de la Ley* 195 When one shall wage his Law, He shall bring with him vj. viij. or xij. of his neighbours .. to sweare with him, much like unto the oath which they make which are used in the civill Law, to purge others of any crime laid against them, which are called compurgators. 1731 CHANDLER tr. *Limborch's Hist. Inquis.* II. 208. 1760 BURN *Eccl. Law* (1797) III. 276 By his own oath affirming his innocency, and the oaths of twelve compurgators as to the belief of it.

b. In reference to OE. times (and more generally to ancient Teutonic law), the usual term, with modern historians, for the 'oath-helpers' whom a person on trial was allowed to call in to swear that, to their belief, as neighbours of the accused and acquainted with his character, he was speaking truth in making oath of his innocence. Also, sometimes applied by modern legal writers to the same persons in Wager of Law.

A native name for the *consacramentales* (Ger. *eides-helfer*) is found only in the oldest Kentish Laws, viz. *ǽwda*, pl. *ǽwdan* (*L. of Hlothære* and *Eadric* 2, 4; *L. of Wihtræd* 23) evidently a deriv. of *ǽwe* 'law'. Elsewhere they appear merely as 'his ȝeferan' his fellows, 'þa þe him midstandað'. In OHG. *gieido* (Hildeb. in Grimm) f. *eid* oath: cf. the latinized 'cum aidis suis' in Laws of the Longobards c. 364. The oath of the ǽwdan was 'On þone Drihten, se áð is cláene and unmǽne þe N. swór' (Schmid, *Gesetze* 406).

App. 101 Compurgators, who ..expressed upon oath that they believed the person spoke true. 1768 BLACKSTONE *Comm.* III. xxii. 343 The manner of making and waging law..And thereupon his eleven neighbours or compurgators shall avow upon their oaths that they believe in their consciences that he saith the truth; so that himself must be sworn *de fidelitate*, and the eleven *de credulitate*. 1809 TOMLINS *Law Dict.* s. v. *Wager*. 1860 C. INNES *Scotl. Mid. Ages* 183. 1876 FREEMAN *Norm. Conq.* V. xxiv. 452 The compurgators of our oldest law were not a jury in the modern sense, but they were one of the elements out of which the jury rose. 1881 *19th Cent.* 386 The compurgators were simply witnesses to character .. but the effect of their unanimous declaration of belief in his innocence was precisely that of a verdict of 'not guilty' by a jury.

2. In more general application: One who testifies to or vindicates another's innocence, veracity, or accuracy; one who vouches for, or clears from any charge. Also *fig.*

Con (kɒn), *v.*[1] Forms: 1 cunnan, 2–5 cunnen, (cune), 3–6 cunne, 4–9 cun; also kunne(n, kun; also 4–6 connen, (cone), 4–7 conne, 6–con. See more fully under CAN *v.*[1] [In the verb CAN the original vowel of the infinitive, and of all parts of the present stem except 1st and 3rd sing. pres. indic., was *u*: thus Inf. *cunnan*, ME. *cunne(n, cun*; Ind. pres. 2nd sing. *cunne*, later *cunnest*, pl. *cunnon*, ME. *cunne(n, cun*; Conj. pres. *cunne*, pl. *cunnen*; pr. pple. *cunnand*, ME. *-end, -ing*; vbl. sb. *cunning*. These *u* forms survived more or less all through the ME. period: see CAN *v.*[1] A.; but in accordance with the scribal practice of writing *o* for *u*, in contact with *m, n, u* (*v*), *w*, they were often spelt *connen, conne, con*; the pronunciation is however proved by numerous rimes with *sone, sonne, son* (= son), *sonne, son* (= sun), *yronne* (= y-run), *wonne, won* (OE. *wunian*), etc. The form of the 1st and 3rd sing. *I can, he can*, also varied from OE. times with *con* (*cɒn*), the regular Old WS. type (see Sievers *Ags. Gramm.* § 65). *I con* (in *Cast. Loue* 1071, riming with *for-pon*) is found for *I can* in some texts even after 1400; but long before this *can* prevailed as the midland and northern form, at least in senses 1 and 2. The vowel-type of the 1st and 3rd sing. pres. ind. was gradually extended to the 2nd sing. (*cɒnst, canst*), the plural (*we cɒn, can*), the conj. pres., and the infin. (*cɒn, can*)—the last in Standard Eng. only from end of 15th c. The *u* forms thus remained intact only in the pple. and vbl. sb. CUNNING, q.v. About the same time a differentiation of forms and senses became manifest: *can* became established in sense 2 'to be able', and predominant in sense 1 'to know'; but *cun, con*, were retained and extended to all parts in sense 3 'to learn', and the phrase *to cun* or *con* thanks, sense 4. This *cun, con*, was mainly the representative of ME. *cunn-* or *conn-* from OE. *cunn-* (= kun); but in part it represented ME. *con*, from OE. *cɒn*, for *can* (= kɒn); hence it survived in two forms, *cun*, which is still common dialectally in 'to cun thanks', and *con*, which was the form in literary favour, both in the obs. 'to con thanks', and the still existing sense 'to con or learn a lesson'. This *con* is not a mere spelling variant of *cun*, as ME. *conne* was of *cunne*; but, from Spenser onward, *con* rimes with *on, conned* with *fond*, which is still the received pronunciation. The original pa. t. was *cūðe, couthe, coud, could* (see CAN *v.*[1]); but already in 14th c. in the phrase *to cun thanks*, sense 4, we find a pa. t. *cunde, conned*, with corresp. pa. pple.; at the differentiation of forms this was associated with *cun, con*, leaving *coud, could* to CAN *v.*, so that CON is now a regular weak verb *con, connest, conneth, cons, conned*. Thus there remains no consciousness of connexion between *can* to be able, and *con* to learn. The earlier quotations however overlap the ground covered by CAN *v.*[1], and are given as supplementary to those under that word, and introductory to the later use of *con, cun*.]

‖ **Con,** *prep.* Italian :—L. *cum* with, appearing in certain phrases, as CON AMORE, q.v.; esp. in musical directions,

e. g. *con affetto* with feeling, *con brio* with spirit and force, *con delicatezza* with delicacy, *con delirio* with frenzy, *con espressione* with expression, *con fuoco* with fire, *con moto* with spirited movement, *con spirito* with spirit, etc.

Con- *prefix*, of Latin origin. The form assumed by the Latin preposition *com* (in classical L., as a separate word, *cum*) before all consonants except the labials, *h*, *r*, and (in later times) *l*, as *concutĕre, condōnāre, confluĕre, congruĕre, conjūrāre, conquīrĕre, consistĕre, conspīrāre, constāre, contrahĕre, convincĕre.* In earlier times it was also used before *l-*, as *conloquium*; but here it was in later times always assimilated, as *colloquium*, and so in the modern langs. On the other hand it was not used in classical L. before *n* (e. g. *cōnātus, cōnubium*, etc.), but has been introduced subsequently, as *connātus, connubium*, and this spelling is followed in English. For meaning, see COM-.

Con- occurs in compounds formed in Latin, and that have come into English through French, or (in later times) directly. Also, in words formed on the analogy of these, and sometimes in casual combinations, as *conspecies*, where, however, Co- is the usual prefix: hybrids, frequent in *co-*, are rare with *con-* : cf. *con-brethren, con-truth.*

In OF. *con-* before *v* was often reduced to *co-, cu-, cou-*, as in *covenable, covenant, covent, coveiter, coveitus*, etc., in which form these words were taken into English. Following later French, some of these were afterwards altered back to *con-*, as *convenable, convent* (but *Covent Garden*, F. *couvent*); others retain *co-*, as *covenant, covet, covetous*, against mod.F. *convenant, convoiter, convoiteux.*

On this account they were called Conceptualists. *c* 1837 HAMILTON *Lect. Metaph.* (1859) II. xxxvi. 316 The older Conceptualists [e. g. Concert (kǫ̈nsə·ɹt), *v.* [ad. F. *concerte-r* (16th c.), ad. It. *concertare* to proportion or accord together, to agree or tune together, to sing or play in concert.

The Italian is identified by Diez with L. *concertāre* intr., to contend zealously, dispute, debate. Such a change of sense might conceivably come about through an intermediate 'argue out, settle by debate,' whence 'come to terms, arrange terms'; but evidence is wanting. Florio has, in 16th c. It., *conserto, consertare*, as parallel forms of *concerto, concertare*; these (if real words) point to L. **consertāre* freq. of *conserĕre* 'to join or fit together, connect'; the same origin has been claimed by Spanish etymologists for Sp. *concertar* which has among other senses 'to mend a thing broken'. But here the phonetic change is unexplained. Already in 16th c. It. *concerto* was associated in the musical sense with *concento* (Concent); Florio, 1598, gives *concerto* merely with a cross-reference to *concento*. Hence a conjecture that *concerto, concertare* were perversions of *conserto, consertare*, under the influence of *concento*: but what then of Sp. *concertar*?

4. Applied by the early logicians and grammarians to a quality viewed (as it is actually found) *concreted* or adherent to a substance, and so to the word expressing a quality so considered, viz. the adjective, in contradistinction to the quality as mentally abstracted or withdrawn from substance and expressed by an *abstract* noun: thus *white* (paper, hat, horse) is the concrete quality or quality in the concrete, *whiteness*, the abstract quality or quality in the abstract; *seven* (men, days, etc.) is a *concrete number*, as opposed to the number 7 in the abstract.

Afterwards *concrete* was extended also to substantives involving attributes, as *fool*, *sage*, *hero*, and has finally been applied by some grammarians to all substantives not abstract, i.e. all those denoting 'things' as distinguished from qualities, states, and actions. The logical and grammatical uses have thus tended to fall asunder and even to become contradictory; some writers on Logic therefore disuse the term *concrete* entirely: see quot. 1887. In this Dictionary, *concr.* is prefixed to those senses in which substantives originally abstract come to be used as names of 'things'; e. g. *crossing* vbl. sb., i.e. abstract n. of action, *concr. a crossing* in a street, on a railway, etc.

From an early period used as a quasi-*sb.*, *a concrete* (*sc.* term).

‖ **Condominium** (kǫndomi·niəm). [mod.L., f. CON- + *dominium* lordship: cf. *convivium, contubernium*, etc.] Joint rule or sovereignty.

Condominium is the subject of various Latin treatises of 17-18th c., chiefly by Germans, e.g. Frommanus *De Condominio Territoriali*, Tübingen, 1682. Hence Burnet's use.

a 1714 BURNET *Own Time* (1823) IV. VI. 412 The duke of Holstein began to build some new forts..this, the Danes said, was contrary..to the *condominium*, which that king and the duke have in that duchy. 1882 *Sat. Rev.* 16 Sept. 361 The establishment of a new condominium with all Europe.

Condonance (kǫndō·nəns). [f. L. *condōnā-re*: see -ANCE.] = CONDONATION.

1865 *Athenæum* No. 1969. 118/2 Nor ask condonance for his errors. 1882 T. MOZLEY *Remin.* II. CXXVI, For everything short of fanatical and intolerant atheism, there was not only condonance, but a certain degree of admiration.

†**Condonate,** *v. Obs.* [f. L. *condōnāt-* ppl. stem of *condōnāre*: see CONDONE and -ATE.] = CONDONE.

Condonation (kǫndonē·ʃən). [ad. L. *condōnātiōn-em*, n. of action f. *condōnāre* to CONDONE. The English use was taken from the Latin casuists of the 16-17th c.: cf. the later verb CONDONE.]

The pardoning or remission of an offence or fault; the voluntary overlooking of an offence, and treatment of the offender as if it had not been committed; now (under influence of the legal use in b.) most frequently used of action towards the offender which tacitly implies that his offence is passed over.

1625 BP. MOUNTAGU *App. Cæsar* vi. 169 The blot..of sin.. remaining in the soule of man, in like manner as it did before condonation. *c* 1630 JACKSON *Creed* IV. II. vii. Wks. God's favour or condonation (to use their Latin word with addition of one English letter) is..requisite for our acceptance or approbation with Him. 1871 MORLEY *Voltaire* (1886) 99 There ought to be little condonation of the foibles, and none at all of the moral obliquities, of the dead. 1885 E. GARRETT *At Any Cost* xvii. 296 Mrs. Brander's easy condonation of the sins of one who was 'so pleasant in society'.

b. *Law.* The action of a husband or wife in the forgiving, or acting so as to imply forgiveness, of matrimonial infidelity.

1788-91 SIR W. SCOTT (LD. STOWELL) in *Consistory Rep.* I. 130 Condonation is a conditional forgiveness which does not take away the right of complaint in case of a continuation of adultery. 1799 — in Haggard *Rep.* I. 793 Condonation is forgiveness legally releasing the injury: it may be express, or implied .. It would be hard if condonation by implication was held a strict bar against the wife. 1858 SIR C. CRESSWELL in *Times* 15 Dec. 8/6 Condonation meant a blotting-out of the offence imputed, so as to restore the offending party to the position which she occupied before the offence was committed. The English word 'forgiveness' as commonly used, did not fully express the meaning of 'condonation'. 1859 PHILLIMORE in Swabey *Rep.* I. 348 The word and doctrine of condonation was introduced into the law of England from the Canon Law. The expression 'Condonatio' does not even occur in the Civil Law.

(Some of the variants are found only in SAFE-CONDUCT, q.v.) [Two original types of the word have existed in Eng., viz. *conduit, conduite* from OF., and the current *conduct* immed. from L. *conduct-us* (4th decl.), f. ppl. stem of *condūcĕre* to CONDUCT, CONDUCE. The former was partly a. OF. *conduit* (= Pr. *conduch*, Sp. *conducto*, It. *condotto*):—L. *conduct-us*, as above; partly a. OF. *conduite* (Sp. *conducta*, It. *condotta*):—late L. type **conducta*, sb. fem. f. pa. pple. (corresp. to nouns in *-āta*). These two sbs. remain distinct in F.; but through the obsolescence of final *-e*, they fell together in ME. *conduyt(e*. This was often phonetically weakened to *condute, condyt(e*; in 15th c. it was frequently, like the Fr., spelt *conduict, conduycte* (the *c* being inserted from L.), and finally in 16th c. was entirely refashioned after L., as *conducte, conduct*. 2. A number of states (or formerly of persons) united by a league; a body of states united for certain common purposes.

In modern political use, 'confederation' is usually limited to a permanent union of sovereign states for common action in relation to externals. Such were the following: *Germanic Confederation*, the union of the German States under the presidency of the Emperor of Austria from 1815 to 1866. *Confederation of the Rhine*, the union of certain German States under the protection of Napoleon Bonaparte from 1806 to 1813. *New England Confederation*, the union of four New England colonies for common defence against the Dutch and the Indians, 1643–84. The United States of America are commonly described as a *Confederation* (or confederacy) from 1777 to 1789; but from 1789, their closer union has been considered a 'federation' or federal republic.

It. *confidente* 'confident, trusty', 'a trusty friend'.

This sense prob. originated in the application of the word to two friends who mutually confide in or trust each other, and hence are trusted by each other; the latter or inferred part of the notion becoming at length the only one thought of, as in Littré's explanation 'he or she to whom one confides one's secrets, one's intimate thoughts.' The historical instances given by Littré show that the F. word had in 16–17th c. the wider sense of 'trusty adherent, partisan,' like our sense B 1.]

5. *Eccl.* A rite administered to baptized persons in various Christian Churches; formerly called 'bishoping'.

In the Roman and Greek Churches, always reckoned one of the seven sacraments, and in these and in the Church of England held to convey or be the vehicle of special grace which 'confirms' or strengthens the recipient for the practice of the Christian faith.

Down to the 13th c. confirmation was administered immediately or soon after baptism (as still in the Greek Church); since that time, it has been usually deferred in the Western Churches till the 'years of discretion'. In the Church of England and some other Reformed Churches, candidates are required publicly and personally to renew, ratify, and 'confirm' their baptismal vows (see Confirm *v.* 2, quot. 1552), and are then admitted to the full privileges of the Church.

Confuse (kŏnfiū·z), *v.* [A passive pple. *confused* is found from 14th c.; but the present stem and active voice are only of modern use, having been formerly expressed by CONFOUND: cf. F. *confondre, confus*, L. *confundĕre, confūsus.* The vb. is entered by Bailey (folio) 1730–6, and thence by Johnson, but there are no examples, exc. of the pa. pple., in J., Todd, or Richardson. The pple. was thus evidently an English adaptation of F. *confus* or L. *confus-us*, with the native ppl. ending -ED, and the present stem a much later inference from it.

Hence, it may be said that *confound* had formerly 3 pa. pples., *confuse, confused, confounded*; the first two only passive, the last used also in forming the perfect active: of these *confuse* became at last solely an adjective; *confused* has given origin to a separate verb, *confuse*, of which it is now the pa. pple.; *confounded* remains the sole pa. pple. of *confound.*]

[The phonology and final stress in verse show this word to be of French origin. IV, 1754, and thence in Henschell's Du Cange), a CHANGELING (Ger. *wechselbalg* a child of an incubus, demon, or hag, substituted for a human child) f. *cambīre* to change.

The ME. forms have suffered at the hands of bad copyists and editors, who have turned *conjon* into *conjoun*, *conioun* (= *conjoun*) into *coinoun*, with other blundered spellings. A derivation from *cambio* fits the sense, for changelings were popularly held to grow up dwarfs or deformed in body (cf. sense 1), and deficient in intellect (sense 2), and to be called one was a grievous insult (senses 3, 4). The difficulties are (1) the apparent rarity of the word in Fr., where the only instance yet cited is one of 1427 in Du Cange, repeated by Godefroy, under the form *changòn* 'terme injurieux', which is app. the central F. form, standing for *changeon, chanjon*; (2) the AFr. or early ME. change of *can-* to *con-*; this took place before the retraction of the stress from the final syllable, and may have been owing to association with the prefix *con-*.]

† **Conger**[2] (kǫ·ŋgəɹ). *Obs.* [Of doubtful origin and form.] See quots.

To Kersey is due the statement (or suggestion) that the word was originally *congress* or F. *congrès*, subsequently treated as a plural, with singular *conger*. But it is to be noted that in most of the quots. *conger* is applied to the association, not to a member of it. Bailey refers it tentatively to *conger* the fish, which may indicate a contemporary joke.

(The intention of the Act of 1854 was to enlarge the constitution and powers of the 'Ancient House of Congregation': it was held however by the legists that, instead of doing so, it had created a new body, 'the Congregation of the University', leaving the 'Ancient House' intact. There are therefore now *two* Congregations in the University.)

5. In English versions of the Bible, applied in the O.T. to the collective body of the Israelites in the wilderness, and to a public solemn assembly of the people or nation: so *congregation of the Lord*, etc.

Here it is put for two distinct Heb. words עֵדָה *ʿēdāh* and קָהָל *qāhāl*, the original difference between which was app. that עדה meant the collective body or community, and קהל an actual assembly that had met and would disperse again; but in application the two were necessarily often identical; the assembly consisted of or represented the community. By the LXX עדה is, with rare exceptions, rendered *συναγωγή*; קהל is rendered 70 times *ἐκκλησία*, 37 times *συναγωγή*, 10 times by ὄχλος or other word. The Vulgate has for both words a great variety of renderings, e.g. *multitudo, cœtus, populus, turba, congregatio* for both; also *plebs, vulgus, globus, caterva, synagoga* for עדה; *concio, ecclesia, exercitus* for קהל. Wyclif has *congregacioun* only in the few places in which *congregatio* appears in the Vulgate; but in the 16th c. versions, *congregation* became the predominant rendering of both words; in the 1611 version it occurs 124 times for עדה, 86 times for קהל. (In a relatively small number of cases, both words are rendered *company*, and *assembly*.) The Revised Version of 1885 has distinguished עדה and קהל in the Heptateuch as *congregation* and *assembly*, but elsewhere has usually continued the indiscriminate use of 'congregation' found in the earlier version.

1382 WYCLIF *Num.* i. 2 Take 3e the sowme of all the congregacioun of the sones of Ysrael. 1535 COVERDALE *Micah* ii. 5 No man to deuyde the thy porcion, in the congregacion off the Lorde. 1611 BIBLE *Lev.* iv. 21 It is a sinne offering for the Congregation [1885 *Rev. b. Hence, in O. T. language, in certain phrases, e.g. *the congregation of saints, of the wicked, of evildoers, of hypocrites*, etc. = whole body, company.

5. *Theol.* a. (*Doctrine of Merit.*) With the Schoolmen, the condition of its being 'congruous' that God should confer the 'first grace' in response, and in 'a certain equality of proportion', to the performance of good works by man. Opposed to CONDIGNITY.

Representing L. *congruitas*, used by Aquinas in stating that while 'condignity' can be attributed to meritorious works only as they proceed from the grace of the Holy Spirit, it yet 'seems *congruous* that a man, working according to his own virtue or power, should be recompensed by God according to the excellency of His virtue.' *Summa Theol.* Prim. Sec. Q. cxiv, Art. iii. Hence the expressions *meritum ex congruo*, *meritum congrui* 'merit (arising) out of congruity', 'merit of congruity'; *mereri* (*gratiam*, etc.) *de congruo* 'to merit (grace, etc.) from or of congruity'. (Some late writers have apparently confused the last with the 'congruity of efficient grace' in b.)

1553 *Articles of Relig.* xii, Workes done before the grace of Christe..are not pleasaunt to God..neither do thei make menne mete to receiue Grace, or (as the Schole aucthoures saie) deserue Grace of congruitie [L. *neque gratiam, ut multi vocant, de congruo merentur*]. 1570 FOXE *A. & M.* 25 So that those works maie be meritorious, and of congruitie obteine grace. 1625 USSHER *Answ. PEMBLE *Justification* (1629) 31 What then are merits of congruity? Such workes whereto wages is not due by any iustice. 1675 BAXTER *Cath. Theol.* II. 39 But some of them say, that the Gospel it self, yea and the first special Grace, is given to men upon merit of congruity, though not of condignity. *a* 1707 BEVERIDGE *On 39 Art.* art. xiii, As we cannot do anything which it is just God should reward, and so deserve Grace of condignity: so neither can we do anything which it is fit and meet God should reward, and so deserve grace of Congruity. 1841 J. H. NEWMAN *Tract* xc. § 3 To deserve *de congruo* or of congruity, is to move the divine regard, not from any claim upon it, but from a certain fitness or suitableness: as for instance it might be said that dry wood had a certain disposition of fitness towards heat which green wood had not. 1856 BP. H. BROWNE *On 39 Articles* Art. x, It being agreeable to His nature and goodness to bestow grace on those who make such [unassisted] efforts. Endeavours then on the part of man to attain to godliness were by the schoolmen said to deserve grace *de congruo, of congruity.*

b. (*Doctrine of Grace.*) The suitability or adaptation of divine grace to the character, nature, disposition, or other circumstances of the person called, to which some theologians attribute its efficacy (see CONGRUISM); 'the efficacy of grace which acts while at the same time preserving the action of the free will' (Littré). A term belonging to the great controversy on Grace between the Dominicans and the Jesuits, which began c. 1580.
